Water Proof

Ambient operating
temperature

COB62 PENDANT STATION

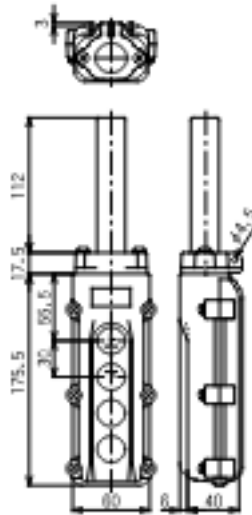

TECHNICAL DETAILS

Model	COB-62
Material:	plastic
Water proof	yes
Colour	Orange
Ambient operating temperature	-20 ~ +131 F
Contact structure	composite button
Contact resistance	50 (Ω)
Insulation resistance	50 ($M\Omega$)
Push buttons	4 ways, up, down, east, west
Type of contact	momentary

Dimension

Characteristics

- The COB series are used in controlling circuit of AC 50HZ or 60HZ, Voltage to 660V, DC voltage below 400v, it is used for controlling signal and interlocking.
- The main body adopts zinc alloy and high grade anti-flaming plastic, the contact adopts circuit of AC voltage 380v, 50hz or 60hz, DC voltage below 380V.
- Used as kinds of indication signal, warning signal, accident signal and other signals.
- These are rain proof crane control push button switch which are newly developed products.
- These are made up of very high quality fine plastic, and there design are very beautiful.
- These have advanced and big contact capacity, mechanical interlocking , and if necessary they can achieve interlock circuit to assure the more safety and reliable using.
- The products matched cable jacket and waterproof rubber sealing strip, have a good (IP65 level) performance of dust and rain.
- So these are most suitable for the remote control in outdoor, rainy and snowy, dusty and damp environment, such as electric hoist, open conveyor belt, building line etc.
